

International Integrated Services

OCEAN FREIGHT

ProTrans International, Inc.® is a licensed NVOCC and Ocean Transportation Intermediary (OTI). We are positioned to handle all aspects of your shipment throughout the supply chain. We offer a full range of ocean related services including FCL & LCL container management, ocean forwarding, NVOCC consolidation, all in addition to our customer service team.

Global Services

- ▲ NVOCC / OTI Services
- ▲ Freight Forwarding
- ▲ AES / SED filing
- ▲ Cargo tracking
- ▲ Freight consolidation
- ▲ Insurance services
- ▲ Delivery verification
- ▲ Consularization services
- ▲ Destination customs clearance
- ▲ Cargo booking & collection
- ▲ Letter of credit banking
- ▲ Export customs clearance
- ▲ Export customs documentation preparation
- ▲ Document preparation & distribution
- ▲ Shipment pre-planning, alerts & confirmations
- ▲ Customer / purchase order management tracking

Electronic Capabilities

ProTrans' flexible systems can process almost any type of electronic data message.

Flexible Schedules

By contracting and working with multiple carriers on a daily basis, ProTrans can accommodate the requirements of virtually any scheduling task.

- ▲ Best transit times & frequency
- ▲ Capacity & equipment with vessel scheduling flexibility
- ▲ Closeout & arrival dates to meet customer needs

Freight Visibility

Our tracking system provides views into your shipment and can be done in near to real time. Critical information about your shipment can be displayed or downloaded giving you the tools to make time sensitive decisions.

- ▲ Tracking from PO inception to destination delivery
- ▲ Visibility of product throughout shipment cycle

Purchase Order Management

ProTrans' purchase order management provides detail level consolidation from single or multiple vendors as well as multi-country consolidation. It offers purchase order level detail along with the highest level of ProTrans' ocean services.

Competitive Pricing

ProTrans enjoys leveraged pricing with many carriers that results in providing your company the best value.

- ▲ No contractual liability
- ▲ Flexibility in price, service & sailing schedules
- ▲ Blended service
- ▲ Fastest transit

Cycle Time Reporting

Important management information is revealed throughout several events in the life of a shipment. Using a system driven by these events gives us the ability to create cycle time reports. Cycle time reporting allows the user to manage all components in the shipment life cycle, rather than just managing the freight.

Project Cargo & Charters

This area of our ocean freight services offers experienced personnel for your freight requirements in the cases where special consideration is necessary due to the size and/or weight of the cargo.
